Chicago, IL – Essie Hall proudly announces her candidacy for the Alderman of Chicago's 9th Ward. The election will take place on February 26, 2019.

Essie Hall:

"My name is Essie Hall and I am running for alderman of the 9th ward because it's time for real change. As an educator and counselor, for over twenty years I have served the Chicago Public Schools and taught in the university setting. I know the academic challenges our children face. They need advocates. Our schools need resources. Our teachers need support. More than half of our community schools are underperforming and fall below state standards. "

"I have lived in the 9th Ward over 45 years and I remember its legacy, how it used to thrive. I know how critically important environment is. How safety, economic development and good schools are essential to a strong community."

"Let's work together and restore the 9th Ward! Together, we can reclaim its legacy, together we must revitalize its industry, and together we will renew community."
